CFF Flies Patterns and by Waters 2014 - 18

The table below shows the various flies by location which caught fish on the club's waters in the period 2014-18 as reported in the Catch Returns for the particular years.

The tying details provided are in some cases the definitive ones but some are just examples under the description recorded in the catch returns as some descriptions were generic and as such are not necessarily the actual flies that were fished. If any member finds this to be the case and is prepared to send me the details of the actual fly used then I will include it.

One fly reported in 2018 was the "St Crispin Mayfly". The only record I can find of this suggests that it was tied by G Bustin, tackle suppliers, of Oxford. A picture is reproduced below together with what I think might be the materials used. If whoever has this fly would send me a photograph and a list of the materials, I will happily include it.

It is fairly obvious that this is not a professionally written book so please read it as such. However, I would welcome positive comments and sensible suggested additions, all of which I will try to include when I have the time available.

This booklet is for the personal use of members of Cotswold Flyfishers and is not in any way to be used commercially.

John Pope March 2020

Adams

Hook: Standard Fine Wire Dry Fly;10-20
Thread: Gray or black, 6/0
Wing: Grizzly hen hackle tips
Tail: Brown and grizzly hackle, mixed
Body: Medium gray muskrat dubbing
Hackle: Brown and grizzly, mixed

Beacon Beige

Hook: Tiemco - TMC 103 BL Size: #17
Thread: Brown 8/0.
Body: Well marked stripped peacock eye.
Hackle: Grizzle cock with red cock wound through.
Tail: Grizzle cock fibres

Beetle

Hook: Size 16-10
Thread: Black
Body: Peacock herl
Antennae (optional): Black deer or elk hair
Back and head: Black closed-cell foam
Hackle: Black cock

Black Gnat

Hook: Standard wet fly sizes 10 - 14
Thread: Black
Tail: Black hackle fibres
Body: Black rabbit dubbing
Wings: Grey duck quills
Hackle: Black hen or soft black rooster
Comments - The Black Gnat was originally tied using red hackle fibres for a tail Some traditionalists still tie the pattern that way, most do not today

Blue Dun

Hook: TMC 100 or equivalent # 12 to 20.
Thread: 8/0 gray.
Wings: Equal segments of two mallard duck feathers.
Tail: Blue dun saddle fibres.
Abdomen: Adams Gray or muskrat dubbing.
Hackle: Blue dun.

Blue Winged Olive

Hook: Standard dry fly hook
Thread: Ultra Thread in 70 Denier – Olive
Wings: Hackle tips in dun
Tail: Hackle fibres in blue dun
Abdomen: Dubbing in a shade that matches the local mayflies (Dark Olive, Light Olive, Grey)
Hackle: Saddle Hackle / Dun Neck

Blue-Wing Olive Parachute

Hook: Mustad 9484o; 12-20
Thread: Olive 6/0
Wing: Calf body hair, parachute style
Tail: Medium blue dun hackle fibres
Body: Olive dubbing
Hackle: BWO Dun

BWO Dun

Hook: TMC 100; 12-20
Thread: Olive 6/0
Wing: Blue dun hen hackle tips
Tail: Blue dun hackle tips
Rib:: Brown silk thread
Body: Medium olive rabbit dubbing
Hackle: Blue dun

CdC

There are hundreds of CdC patterns. A few samples are shown below

CDC Tailwater Dun

Hook: Standard Fine Wire Dry Fly #14-20
Thread: Olive 6/0
Tail: Dun hackle fibres
Body: Olive dubbing
Wing: Dun CDC
Sides: Poly yarn
Thorax: Olive

CDC Biot Comparadun

Hook: Standard Fine Wire Dry Fly #14-20
Thread: Gray 6/0
Tail: Dun hackle fibres
Body: Brown goose biots
Wing: Mallard flank fibres
Thorax: Gray dubbing
Hackle: Dun CDC

CDC Loop Wing Emerger

Hook: Kamasan B420 #4
Thread: Benecchi 12/0, black
Rib: Copper wire, fine
Shuck: Bronze mallard barbs
Abdomen: Holographic flash, pearl
Loop wing: CDC, natural, two feathers
Thorax: Squirrel body fur

CDC Suspender Buzzer

Hook: UmpquaU201 #14
Thread: Danville Flymaster 6/0, scarlet
Bubble: CDC, natural white, looped
Abdomen: Monofilament 0.006" over tying thread
Thorax: Seal's fur, dyed red

CDC Biot Caddis Emerger

Hook: Dry fly hook LXL #14
Thread: Benecchi 12/0,
Shuck: Black Z-lon silver,
Abdomen: Sparse Goose biot dyed tan
Thorax: Ice Dub, olive very slender
Underwing: Z-lon silver
Wing/legs: CDC, natural
Antennae: Lemon woodduck barbs
Head: Peacock herl

CDC Hendrickson Emerger

Hook:TMC 100 #12-20
Thread: Brown 6/0
Tail: Lemon wood duck flank fibres
Rib: Fine copper wire
Body: Brown Antron dubbing
Wing: Dun CDC feathers, tied in at sides
Legs: Partridge hackle
Head: Brown Antron dubbing

CDC Olive

Hook: Size 14-16 down-eyed dry-fly
Thread: Olive
Tail: Blue dun hackle fibres
Body: Medium olive SLF Finesse or similar
Thorax: Medium olive SLF Finesse or similar
Hackle: Blue dun cock hackle
Wing: Natural grey cul-de-canard

Comparaduns

Hook: Standard Fine Wire Dry Fly #14-20
Thread: Tan 6/0
Tail: Brown hackle fibres
Body: Tan dubbing
Wing: Elk or deer body hair

Daddy Long-Legs

Hook: Size 10 wide gape
Thread: Brown
Body: Tan foam
Legs: Six to eight fibres of cock pheasant tail
Wings: Grizzle hackle points
Thorax: Tan fur
Thorax cover: Tan foam
Hackle: Brown cock hackle

Cranefly CDC & Elk

Hook: Partridge BIN (Barbless Ideal Nymph) #12, or equivalent
Thread: Brown 6/0
Body/Hackle: CDC feather; tie CDC & Elk style
Legs: Six cock pheasant tail barbs, lightly knotted, 3 legs on either side
Wing/head: Fine tipped deer hair

Damsel

Hook: TMC 2488 size 12
Thread: Danville's 6/0 (white)
Legs: 6 lb monofilament
Eyes: 40 lb mono
Abdomen & Thorax: 40 lb mono
Wing: Organza ribbon
Markers: Copic colors 110 (special black), B32 (pale blue)

Deer Hair Sedge

Hook: Standard dry-fly hook, sizes 10-18.
Thread: Tan 140-denier (70-denier for smaller flies).
Body: Hare's mask dubbing.
Wing: Deer hair.

Click for Goddard Sedge

Double Badger

Hook: Dry
Thread: Black
Aft Hackle: Badger
Body: Peacock Herl
Fore Hackle: Badger

Elk Hair Caddis

Hook: Wide-gap dry-fly hook (here, a Daiichi 1100), sizes 10-18.
Thread: Brown, 8/0 or 6/0.
Rib: Fine gold tinsel.
Hackle: Brown.
Body: Color to match the naturals.
Wing: Elk or deer hair, cleaned and stacked.
Head: Thread and wing butts.

F-Fly

Hook: Size 10-20
Thread: To match body colour
Body: Fine dubbings in grey, black, olive, brown, tan and hare's ear
Wing: Natural CDC fibres

Grannom

Hook: size 14 or 16
Thread: Black 8/0 Rib black tying silk well waxed and doubled to make it thicker
Body: Green seals fur (green highlander as used in salmon flies is fine)
Wing: 3-4 plumes of dark CDC trimmed so that it is no longer than the bend of the hook
Hackle: 3-4 turns of red game genetic cock, wound in front of the wing

Greenwells Glory

Hook: Size 14-16 dry-fly
Thread: Yellow or primrose silk
Tail: Furnace cock hackle (optional)
Rib: Fine gold wire
Body: Well-waxed yellow or primrose tying silk
Wing: Starling or mallard primary
Hackle: Furnace cock hackle

Grey Duster

Hook: Size 10-16
Thread: Grey Tail (optional) Badger cock hackle fibres
Body: A blend of blueish-grey rabbit underfur and guard hairs
Hackle: Wellmarked badger cock.

Griffiths Gnat

Thread: Black
Hook: #14-24 Dry Fly Hook
Body: Peacock Herl
Hackle: Grizzly Cock Hackle

Gold Ribbed Hare's Ear Dry

Hook: 14 & 16 Kamasan B401
Thread: Tan Uni 8/0
Body: Poll fur taken from the base of a Hare's ear
Rib: Madeira fine gold braid
Wing: Starling primary slips
Tail: Hare's mask guard fibres
Hackle: Furnace cock hackle

Hawthorn

Hook: Size 10-12
Thread: Black
Body: Black seal's fur
Rib: Black Flexifloss
Legs: Knotted black pheasant tail fibres
Wing: White Antron with a few strands of Pearl Twinkle or similar
Hackle: Black cock

Iron Blue Dun

Tag: Red
Tail: Furnace or dark brown hackle or coq de leon.
Body: Blue-gray fur dubbing
Wings: Dark slate.
Hackle: Furnace.

Kites Imperial

Hook: Size 12-16
Thread: Purple
Tail: Honey dun hackle fibres
Body: Grey heron herl. Grey goose and woodpigeon are useful substitutes
Thorax: Doubled and re-doubled herls
Rib: Fine gold wire
Hackle: Honey dun or light ginger cock

Klinkhammer

Hook: Partridge Klinkhamer Extreme #14
Thread: Uni-Thread 8/0
Wing: White Poly Yarn
Hackle: Blue dun cock saddle
Body: Tan SLF and tan rabbit mixed
Thorax: Peacock herl

Klinkhammer - Black

Hook: Partridge Klinkhamer Extreme #14
Thread: Black
Body: Black Seals Fur
Tail: Golden Pheasant Topping
Wing: White Poly Yarn
Rib: Fine, Oval Silver Tinsel
Body Hackle: Black Cock Hackle Palmered
Head Hackle: Brown Cock Hackle

Lunns Particular

Hook: 12 to 16 down eyed dry fly (Kamasan B405)
Tying silk: Pearsall's gossamer crimson
Hackle: medium Rhode Island cock hackle.
Wings:: two medium blue cock hackle-points put on flat.
Tail: four fibres of Rhode Island from large hackle.
Body: undyed hackle-stalk of Rhode Island cock hackle.

March Brown

Hook: #10 - 14 Dry Fly
Thread: White Thread
Tail: Brown Cock Hackle
Wing: Mallard Flank Feather
Body: Light Tan Dubbing
Hackle: Brown Cock **&** Grizzle Cock

Mayflies

There are a mass of mayfly patterns developed over the years, so listed below are just a few tradiitonal tyings

French Partridge Mayfly

Hook: Dry Fly #8 or 10
Thread: Black or brown
Tail: Cock pheasant tail fibres
Body: Natural raffia
Rib: Gold wire
Body Hackle: Palmered olive cock down the body
Head Hackle: French partridge

Mayfly - Green Drake Dun

Hook: Long shank barbless #10-14
Thread: Olive
Tail: 3 dark pheasant tail fibres
Body: UV hare's ear or pearl hare's ear dubbing
Wings: Paired yellow/light green CDC feathers tied upright & split
Hackle: Large dyed green partridge flank feather

Green Drake Hairwing Dun

Hook: Standard dry fly, #10 – 14
Thread: Black 6/0
Tail: Grizzly hackle dyed olive-yellow
Body: Dark olive dubbing
Hackle: Grizzly hackle dyed olive-yellow
Rib: Bright yellow or brown floss
Wing: Black or dark gray calf-elk hair

St Crispin Mayfly

The materials have been deduced from the photograph and as such could well be wrong.

Hackle: Yellow dyed Guinea Fowl

Body: Yellow Seal's Fur

Midge - Cream

Hook: TMC 100; 18-28
Thread: White 6/0
Tail: Cream hackle fibres
Body: Cream rabbit dubbing
Hackle: Cream

Midge - Black

Hook: TMC 100; 20-26
Thread: Black 6/0
Tail: Black hackle fibres
Body: Black rabbit dubbing
Hackle: Black

Olive Dun

Hook: 12-14
Thread: Olive
Tail: Medium olive cock hackle fibres
Body: Cock hackle quill
Hackle: Medium olive cock
Wing: Grey starling

Olive Paradun

Hook: Tiemco #101 or Daiichi 1110, sizes #14 to #24.
Thread: Olive-dun Uni-thread size 6/0 for #14-18, size 8/0 for #20 and smaller (black thread may be substituted)
Tail: Light to medium hackle fibres (Microfibbets may be substituted).
Body: Hareline Fur Dubbing #39, Dark Olive Brown.
Hackle: Light to medium dun hackle.
Wing (Post): Natural fine darker-colored deer hair

Palmer

Hook: Standard wet fly
Thread: Red
Tail: Red wool or floss
Rib: Fine gold wire or oval tinsel
Body: Scarlet seals fur
Palmer hackle: Red game or dark ginger Chinese cock
Head Hackle: as above but hen.

Parachute GRHE

Hook: Standard Fine Wire Dry Fly or similar, #12 - 20
Thread: 6/0 waxed nylon, color to compliment
Tail: Deer body hair fine
Wing: White calf body hair
Body: Dubbed natural hare's ear, fairly bulky
Hackle: Natural grizzly wound around the wing post

Pheasant Tail

Hook: Dry Fly Size: #14.
Thread: Black
Body: 5 Cock pheasant tail fibres.
Rib: Fine (26) gold wire.
Hackle: Natural red (brown) cock.
Tail: 4 Cock pheasant tail fibres.

Plume Tip

Hook: Tiemco 103BL, 19 and 21,
Thread: - Bennecci 12/0
Body: Single strand of heron herl (primary or secondary).
Wing(Plume): Two CDC plume tips
Rib: Tying Thread down and back.
Thorax: Half a dozen CDC fibres

Poly-Wing Trico Spinner

Hook: TMC 100, sizes 18-20

Thread: Black

Wing: Light gray poly yarn. Wings stick straight out the sides so they lie flat on the water.

Tail: Dark dun hackle fibres or Betts Tailing fibres

Body:: Black thread ribbed with light green hackle stem

Thorax: Black Superfine

Poly-Spinner

Hook: 13-21. Tiemco 103 BL
Thread: Fine colour to match natural
Tail: Coq de Leon, Pardo, tied split
Body: Poly dubbing colour to match natural.(Rusty Red, Olive, Beige, Tan)
Wing: Poly yarn in tan or grey

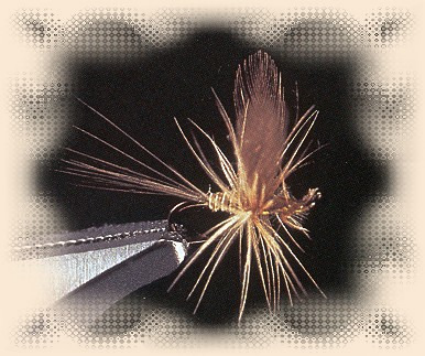
Quill - Blue

Hook: Standard Fine Wire Dry Fly #12-18
Thread: Black 6/0
Wing: Natural gray duck quill segments
Tail: Medium blue dun hackle fibres
Body: Stripped peacock herl
Hackle: Medium blue dun

Quill - Ginger

Wings: Mallard.
Tail: Ginger hackle fibres.
Body: Stripped peacock herl.
Hackle: Ginger.

Quill - Olive Baetis Dun



Hook: Dry-fly hook, #20 through 24.
Thread: Light green 8/0.
Tail: Medium dun spade hackle fibres, length to equal hook length.
Body: One stripped and light green dyed rooster neck quill.
Wings: Pair of medium dun hen hackle tips.
Hackle: Two turns of light ginger or cream hen hackle.

Quill - Orange

Hook: Dry Fly #12-14
Tying silk: Hot Orange Pearsall's.
Wings: Starling
Hackle: Bright red cock
Tail: Spade of same color
Body: Vintage pale condor quill (or substitute), stripped, so as to show no dark edge, and dyed hot orange

Quill - Red

Hook: Standard Fine Wire Dry Fly;12-16
Thread: Gray 6/0
Wing: Lemon wood duck flank fibres
Tail: Medium bronze dun hackle fibres
Body: Brown hackle stem, quill style
Hackle: Medium bronze dun

Sedge - Goddard

Hook: Dry fly Fine wire #10
Thread: Veevus 16/0 gray
Body: Deer hair
Hackle: Brown cock hackle from saddle

Stimulator

Hook: TMC 2312 #6-16 or 3XL Dry fly hook
Thread: Fire orange 70 denier
Tail: Yearling elk
Rib: Fine Copper Wire
Abdomen: Yellow Antron Dubbing
Abdomen Hackle: Brown Rooster Neck hackle
Wing: Yearling Elk
Thorax Hackle: Grizzly Rooster Neck Hackle

Tups Indispensable

Hook: Fulling Mill Ultimate Dry Fly #14 - 16
Thread: Uni-8/0 Yellow or Light Cahill
Tag: Yellow Thread
Tail: Ginger Cock Fibres
Body: 2/3 Natural Wool mixed with 1/3 Red Wool
First Hackle: Light Ginger Hen
Front Hackle: Dyed Light Coral or Light Pink Cock

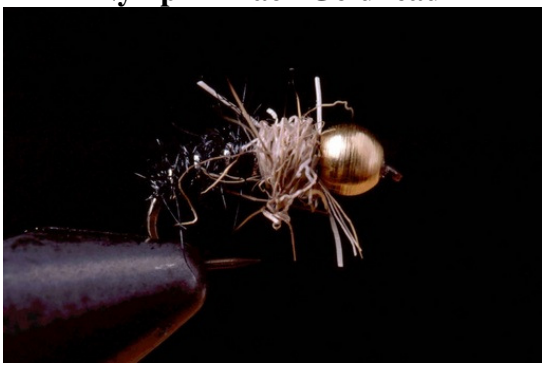
Wulff - White

Hook: Standard Fine Wire Dry Fly #6-16
Thread: White 6/0
Wing: White calf body hair
Tail: White calf body hair
Body: White rabbit dubbing
Hackle: Cream or badger

Wulff - Gray

Hook: Standard Fine Wire Dry Fly #8-14
Thread: Black 6/0
Wing: Natural brown bucktail
Tail: Natural brown bucktail
Body: Gray muskrat dubbing
Hackle: Medium blue dun

Nymph - Black Goldhead



Hook: Regular shank #12 to 16
Head: Small metallic golden ball
Thread: Black
Abdomen: Black seal fur (or substitute)
Ribbing: Fine oval silver tinsel
Thorax: Deer hair

Nymph - Black

Hook: Partridge Wet Fly Supreme size 10-16
Thread: Black Uni 6/0 or 8/0
Tail: Small bunch brown partridge feathers
Body: Black Rabbit / Hare mix
Rib: Medium or fine Mirage tinsel with fine silver wire over
Thorax Cover: Natural pheasant tail
Thorax: As body but well picked out to resemble legs

Add a Gold Bead for another version of a Black Goldhead Nymph

Nymph - Green

Hook: Partridge H1A size 16
Thread: Tan
Tail: Dyed olive pheasant tail fibres
Body: Olive dubbing
Rib: Oval gold tinsel
Thorax: Olive dubbing
Thorax Cover: Dyed olive pheasant tail fibres

Nymph - Martinez Black

Hook: Kamasan B175 #12 (also #8-14 will work)
Thread: Black 8/0
Tail: Guinea - natural
Rib: copper wire
Thorax: Black chenille
Wingcase: Swiss Straw - insect green
Body: Black seal fur or black dubbing
Hackle: Grey Partridge - natural

Nymph - Goldhead PTN

Hook: Wet Fly Size 10-20
Thread: Black
Head: Goldbead to suit Hook size
Body: Pheasant Tail Fibres
Thorax: Pheasant Tail Fibres
Rib: Fine Copper Wire
Tail: 4-6 Pheasant Tail Fibres

Nymph - PTN

Hook: Tiemco 5262 #10-18
Thread: Brown 6/0
Tail: Pheasant tail fibres
Rib: Fine copper wire
Body: Pheasant tail fibres, wrapped herl style
Wingcase Pheasant tail fibres
Thorax Peacock herl

Nymph - GRHE

Hook: Tiemco 3769 #8-16
Thread: Tan or brown 6/0
Tail: Hare's mask guard hairs or brown hackle fibres
Rib: Fine oval gold tinsel or copper wire
Body: Hare's mask dubbing, thorax thicker than abdomen
Wingcase: Mottled turkey or goose wing quill segment

Nymph - Mayfly

There are a myriad of Mayfly Nymph Patterns so the one's below are only a sample and may well not be the versions that have been used on CFF waters

Hook: Size 8-10 longshank
Thread: Brown Unde
Body: Fine lead wire
Tail: Cock pheasant tail fibres
Rib: Dark copper wire
Body: Cream fur
Wing cases: Cock pheasant tail fibres
Thorax: Cream fur
Hackle: Cock pheasant tail fibres

Nymph - Olive

Hook: Size 14-18 wet-fly
Thread: Olive
Tail: Dyed-olive partridge fibres
Rib: Fine,silver wire
Body: Dyed-olive goose or pheasant tail fibres
Wing cases: Cock pheasant tail fibres
Hackle: Dyed-olive partridge feather

Buzzer - Beginner's

Hook: Curved nymph hook #8-12. Vary the wire thickness to vary fly weight.
Thread: Black 8/0
Rib: Orange elastic "floss"
Rear Body: Tying thread
Thorax: Peacock herl
Wingcase: Pheasant tail fibres
Wing buds: Orange elastic "floss"
Head: Tying thread

Buzzer - Epoxy

Hook: Size 10-12 heavyweight grub hook
Thread: Black
Body: Black and white Flexi Floss or equivalent
Thorax: Black Flexi Floss
Wingbuds: Orange Flexi Floss
Thorax cover: Wide pearl tinsel

These can be tied with dfferent colour wingbuds, red, yellow, purple and green.

Emerger - CDC Generic

Thread: 8/0
Hook: Grub hook #14-18
Body, **wing cases and wings:** A CDC hackle
Thorax: Dubbing

This is a generic tying so various colours can be used for all parts of the fly
